FIFA Forward 1.0 Summary Report 2016-2018

Dear Sir or Madam,

FIFA is delighted to share with you a copy of the Forward 1.0 Summary Report 2016-2018.

The launch of the Forward Programme in 2016 represented a key milestone in the development of our game across the world as well as the flagship project of the FIFA President, Gianni Infantino. For the first time ever, a single consolidated approach to investment in football development was introduced, matching unprecedented levels of funding with greater transparency and, crucially, greater focus on the legacy and impact of the investments made.

The report provides a summary insight into what we have already achieved in the three short years since the launch of Forward 1.0. In it, you will find statistics and stories covering the period to 31 December 2018 that illustrate how much we have accomplished together. The report reflects the critical role that you, all 211 of our members, play in the development of football globally. You are the vehicle through which our game continues to thrive and grow throughout the world.

While this is an opportunity for us to look back on our successes under Forward 1.0, it is equally an opportunity for us to consider what the future has in store under Forward 2.0. We have achieved a significant amount in a short time and there is still lots more to do. We look forward to seizing this opportunity together with you over the next four years.

You can access a copy of the report at the links below:
